The Western Society of Malacologists

Occasional Paper 2

A CATALOGUE OF COLLATIONS OF WORKS OF MALACOLOGICAL IMPORTANCE

by

George E. Radwin &
Eugene V. Coan

Issued: AUG 17 1976

This is the second Occasional Paper of the Western Society of Malacologists. Its price is $2.50, which covers printing costs and includes a small handling charge.

The Society also issues an Annual Report based on its yearly meeting. Distribution of the Annual Report is free to regular and student members who are, at the time of issue, in good standing. Membership dues are $5.00 for regular members and $2.00 for students. Others of a regular member's family may join for an additional $1.00, but each such family receives only one Annual Report.

Correspondence regarding membership and orders for copies of the Annual Report or either of the two Occasional Papers should be addressed to the current Treasurer of the Society, Mr. Merton J. Goldsmith, 1622 No. 20th Street, Phoenix, Arizona 85006.

It is an editorial policy to have all Occasional Papers and the longer papers in the Society's Annual Report reviewed by the editor and two other members of the Editorial Board.

Editorial Board

Dr. Eugene V. Coan, Editor
Mrs. Carol Skoglund, Assistant Editor
Mr. Michael G. Kellogg, Assistant Editor
Dr. A. Myra Keen, Past President
Mr. Barry Roth, Past Editor
Dr. James Nybakken, President, 1975-1976

A CATALOGUE OF COLLATIONS OF WORKS OF MALACOLOGICAL IMPORTANCE

George E. Radwin[1] and Eugene V. Coan[2]

Given the importance of priority in zoological nomenclature, the need for accurate dating of taxonomic works is undeniable. Many works, especially those published in parts over a span of several years, and many journals have been the subject of painstaking collations. Unfortunately, these collations are scattered widely through the literature, making their location difficult, and many are in specialty journals or catalogues, not available in most malacological libraries.

In order to draw together as much of this useful information as possible, we have assembled the list that follows. Since this material is so scattered, we have undoubtedly missed a number of significant collations. For these omissions, we offer our apologies and request that suggested additions be forwarded to us for future editions of this list.

We have organized the references alphabetically according to the author of the original work that is collated, or the title of the work itself if the work is without clear-cut authorship. In some instances, papers about the circumstances of publication and contents of important works are listed as well as papers containing collations.
